RECENT WORK

- **rdt.li** - an open source/self hostable url shortener, alternative to bit.ly (over 180+ stars)
- **serpwe.com** - generate, keyword ideas and organize them into topical clusters
- **hetrolinks.com** - instantly repair broken amazon affiliate links over any affiliate blogs or websites
- visit **nrjdalal.com** for more about projects

Visit **Github - @nrjdalal** where I have created/ released several *npm-packages, VS Code extensions, starter kits* and much more.

Nothing is permanent, yet code remains. So why not write clean, re-useable and future-proof code.
